THE MILTON H. ERICKSON FOUNDATION NEWSLETTER

Standing on the shoulders of giants, the world of brief therapy has continued to grow and expand in all of the direc-tions. This December, the Erickson Foundation is presenting its 11th Brief Therapy: Lasting Solutions Conference in San Francisco. This is the only com-prehensive multidisciplinary confer-ence on brief therapy in the world. In

10 tips on how we write papers

giants and delineate clearly when thistributeiscompleteandwhere we have moved on to your orig-inal work. The literature review should be generous to those who have come before you and whose works form the foundations of what you’re doing. Once you’ve done this, transition clearly, with afreshnewparagraph,to your new effort/hypothesis/attempt.

Preface – University of Washington

it, there would be no advantage to be gained from standing “on the shoulders of giants”, and there would never be time to learn something new that the previous

individuals exists. Isaac Newton said: “If I have seen further, it is by standing on the shoulders of giants.” Likewise, those who worked on this handbook have been able to stand on the shoulders of those giants in the field of student transportation ...

Truth and Transparency in Expertise Research

by Isaac Newton’s famous dictum: “If I have seen further it is by standing on the shoulders of giants.” But, as I’ve already implied, information and ideas can’t be taken at face value. Thus, scientific knowledge is validated because it is tested and argued against from every angle.

Scientific Attitude and Values

IF I HAVE SEEN FURTHER IT IS BY STANDING ON THE SHOULDERS OF GIANTS. -SIR ISAAC NEWTON . Open-mindedness . A scientist is open minded. Open-mindedness is an attitude that allows a scientist to look at other possibilities. “The measure of intelligence is the ability to change.”

Why upgrade
Standing on shoulders. We have been helping our customers for many years and some problems keep popping up again and again. A whole lot of problems are so common we have basically built the same solution - only with slight modifications - for different customers. While this is great for consultants it’s not the best use of anyone’s time or ...

Physics - for students who are 16 -17 years old

able to achieve all he achieved. The concept of standing on shoulders of giants informs scientific practice to this day. Modern research must base itself on what has gone before and push the envelope by its own, incremental, amount. Scientists must have the humility to acknowledge that they are a small part of a big process.
